

Before the
FEDERAL COMMUNICATIONS COMMISSION
Washington, D.C. 20554

In the Matter of

Modification of Parts 2 and 15 of the Commission's Rules for unlicensed devices and equipment approval.	ET Docket No. 03-201
---	-------------------------

COMMENTS OF Bluetooth SIG Regulatory Committee (RegC)

RegC, the Regulatory Committee within the Bluetooth SIG hereby submits its Comments on the above-captioned Proceeding. This document was prepared by RegC and approved by the Executive Director of the Bluetooth SIG.

RegC appreciates the opportunity to provide these comments to the Commission.

INTRODUCTION

On June 22, 2007, the Commission issued a MEMORANDUM OPINION AND ORDER AND FURTHER NOTICE OF PROPOSED RULE MAKING, under ET Docket 03-201, in which the Commission seeks comment on recommendations by Cellnet Technology ("Cellnet") for inclusion of rules for spectrum etiquette under Part 15.247 and Part 15.249 of the rules in the 915 MHz band. Later in the proceeding, the Commission enlarges the scope of comments requested to include all of the Part 15.247 and Part 15.249 bands.

IEEE 802.18 has already submitted comments on the matter above through their document "IEEE comments on p 15 1007.pdf".

RegC Recommendations

RegC supports the comments submitted by IEEE 802.18, in particular where these refer to the 2.4 GHz ISM band.

We also support that no rules be added to Part 15.247 or Part 15.249 to mandate formal spectrum etiquette requirements for unlicensed devices.

Respectfully submitted,

Mike Foley, PhD
Executive Director Bluetooth SIG
Inc.
